The audio webcast will be archived shortly after the live event and available for 30 days following the conference. In addition, it will be available for 30 days on the Investor Relations section of the Curis website at www.curis.com.

About Curis, Inc.

Curis is an oncology-focused drug development company seeking to develop and commercialize next generation targeted small molecule drug candidates for cancer treatment. Erivedge® is the first and only FDA-approved medicine for the treatment of advanced basal cell carcinoma and is being commercialized and developed by Roche and Genentech, a member of the Roche Group, under a collaboration agreement between Curis and Genentech. Curis is also leveraging its experience in targeting signaling pathways to develop proprietary targeted cancer programs, including CUDC-427, a small molecule antagonist of IAP proteins, and CUDC-907, a dual HDAC and PI3K inhibitor.
