About Curis, Inc.

Curis is an oncology-focused drug development company seeking to develop and commercialize next generation targeted small molecule drug candidates for cancer treatment. Erivedge® is the first and only FDA-approved medicine for the treatment of advanced basal cell carcinoma and is being commercialized and developed by Roche and Genentech, a member of the Roche Group, under a collaboration agreement between Curis and Genentech. Curis is also leveraging its experience in targeting signaling pathways to develop proprietary targeted cancer programs, including CUDC-427, a small molecule antagonist of IAP proteins, and CUDC-907, a dual PI3K and HDAC inhibitor.
